A journey into the heart of Italy is the underlying theme of Landscape, the new Refin collection inspired by the limestone central to the character of the most typical Italian countryside. A simple, tasteful collection, featuring natural colours and elegant vein patterns, tone-on-tone shade variation and a luminous chromatic range. The understated beauty of the sedimentary rock of which so many Italian villages and cathedrals are built is the key-note of a strongly contemporary collection, influencing a classic material with sophisticated inputs from the very latest trends.
